

## **Product Data Sheet**

## **PPP2R2B Blocking Peptide**

| Catalas II     | <b>C</b>          | Describer 1   | A sufficient sur                      |                 |  |
|----------------|-------------------|---|---------------------------------------|-----------------|--|
| Catalog #      | Source            | Reactivity  | Applications                          |                 |  |
| CBP5631        | Synthetic         | H, M, R, B, Mk, P   | BL                                    |                 |  |
| Description    | The pe            | eptide is used to block Ar  | nti-PPP2R2B Antibody (#CPA5631) rea   | activity.       |  |
| Form           | Lyoph             | ilized powder   |                                       |                 |  |
| Gene Symbol    | PPP2R             | 2B  |                                       |                 |  |
| Alternative N  | ames Serine       | Serine/threonine-protein phosphatase 2A 55 kDa regulatory subunit B beta isoform;     |                                       |                 |  |
|                | PP2A s            | subunit B isoform B55-be  | eta; PP2A subunit B isoform PR55-bet  | a; PP2A subunit |  |
|                | B isofo           | orm R2-beta; PP2A subun   | nit B isoform beta                    |                 |  |
| Entrez Gene    | 5521 (            | Human); 72930 (Mouse)   | ; 60660 (Rat)                         |                 |  |
| SwissProt      | Q0000             | Q00005 (Human); Q6ZWR4 (Mouse); P36877 (Rat)  |                                       |                 |  |
| Purity         | >85%              |   |                                       |                 |  |
| Quality Contr  | ol The qu         | The quality of the peptide was evaluated by reversed-phase HPLC and by mass           |                                       |                 |  |
|                | spectr            | ometry.   |                                       |                 |  |
| Directions for | <b>Use</b> Blocki | Blocking Peptide to the diluted primary antibody in a molar ratio of 10:1 (peptide to |                                       |                 |  |
|                | antibo            | ody) and incubate the mix   | xture at 4°C for overnight or at room | temperature for |  |
|                | 2 hou             | rs.   |                                       |                 |  |
| Storage/Stabi  | lity Shippe       | ed at 4°C. Store at -20°C f   | for one year.                         |                 |  |

Application key: E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC-Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference Species reactivity key: H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb-Rabbit, S- Sheep, Z- Zebrafish
