## mmu-miR-331-3p miRNA Mimic

| Catalog #             | Source      | Reactivity   | Applications   |  |  |  |
|-----------------------|-------------|--|--|--|--|--|
| CMM0142               | Synthetic   | Μ  |  |  |  |  |
| Description           | Synthe      | Synthetic miRNA mimics are used to overexpress mmu-miR-331-3p by transfaction. |  |  |  |  |
| Specificity           | miRNA       | miRNA Mimics are chemically modified, double-stranded miRNA-like RNA which are |  |  |  |  |
|                       | design      | ned to copy the funct  | ionality of mature endogenous miRNA upon transfection.   |  |  |  |
|                       | At the      | 5'-end, it is synthesi   | zed with a partially complementary motif to 3'UTR end of |  |  |  |
|                       | the ta      | rget gene, which allo  | ws the miRNA mimic to specifically bind to the target.   |  |  |  |
|                       | Transf      | ection of mimics foll  | owed by downstream gene expression analysis or           |  |  |  |
|                       | pheno       | otypic analysis, is per  | formed to elucidate the targets and roles of particular  |  |  |  |
|                       | miRNA       | As.  |  |  |  |  |
| Form                  | Lyophi      | ilized powder  |  |  |  |  |
| Gene Symbol           | mmu-        | mmu-miR-331-3p   |  |  |  |  |
| Accession No.         | . MIMA      | T0000571   |  |  |  |  |
| Components            | This sy     | nthetic miRNA is ba  | sed on the mature miRNA sequence. It does not contain    |  |  |  |
|                       | the fu      | ll precursor miRNA s   | em-loop.   |  |  |  |
| <b>Directions for</b> | Use We re   | commend re-suspen  | ding the lyophilized synthetic miRNA using DNase and     |  |  |  |
|                       | RNase       | -free ddH2O. To mal  | e a 100 uM stock, dissolve the lyophilized powder using  |  |  |  |
|                       | 50 ul c     | of ddH2O.  |  |  |  |  |
| Storage/Stabi         | lity Shippe | ed at 4 °C. Store at -2  | 0 °C for one year. Avoid freeze-thaw cycles after        |  |  |  |
|                       | recons      | stitution.   |  |  |  |  |

Application key: E- ELISA, WB- Western blot, IH- Immunohistochemistry, IF- Immunofluorescence, FC- Flow cytometry, IC-Immunocytochemistry, IP- Immunoprecipitation, ChIP- Chromatin Immunoprecipitation, EMSA- Electrophoretic Mobility Shift Assay, BL- Blocking, SE- Sandwich ELISA, CBE- Cell-based ELISA, RNAi- RNA interference Species reactivity key: H- Human, M- Mouse, R- Rat, B- Bovine, C- Chicken, D- Dog, G- Goat, Mk- Monkey, P- Pig, Rb-Rabbit, S- Sheep, Z- Zebrafish
